

Note: Sketch shown above is meant to correspond with the Cutting Guide. It does NOT represent specific designer papers.

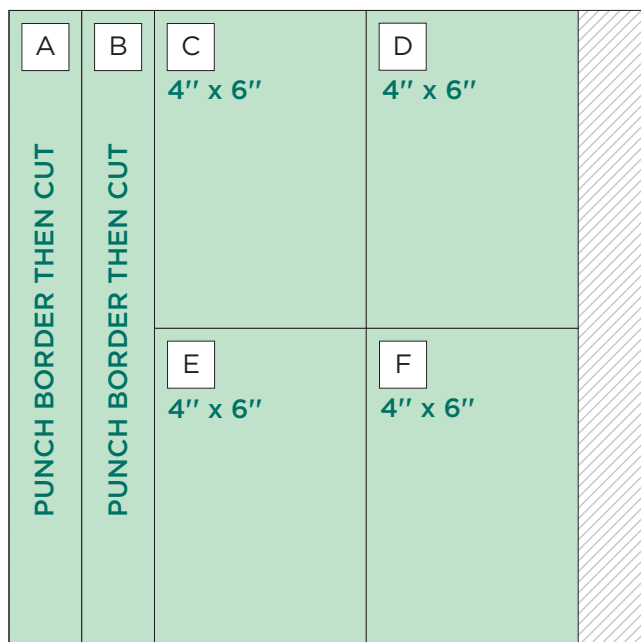

INSTRUCTIONS

- Use one sheet of tone-on-tone paper and one sheet of designer paper for your base.
- Using the Diamond Arches Border Punch, punch border pieces A and B from cardstock. Trim each strip to 1" x 12". Using the 12-inch Trimmer, finish following Cutting Guide 1.
- For pieces G, H and I, first cut a 3-1/2" x 12" strip. Place the strip on the 12-inch Trimmer at a 45-degree angle 2" from the top of the Trimmer (or at the 2" mark) to create corner piece G. Rotate the same strip and repeat for the other corner to create piece I.
- Repeat to cut pieces J, K and L, but first turn over the 3-1/2" x 12" strip to the reverse side before cutting. Finish following Cutting Guide 2.
- For pieces O, P and Q, cut a 2" x 12" strip. Align the long side of the strip with the 45-degree line of the 12-inch Trimmer and the bottom edge on the 7" mark. Cut into two halves (there will be one end with a straight edge and one

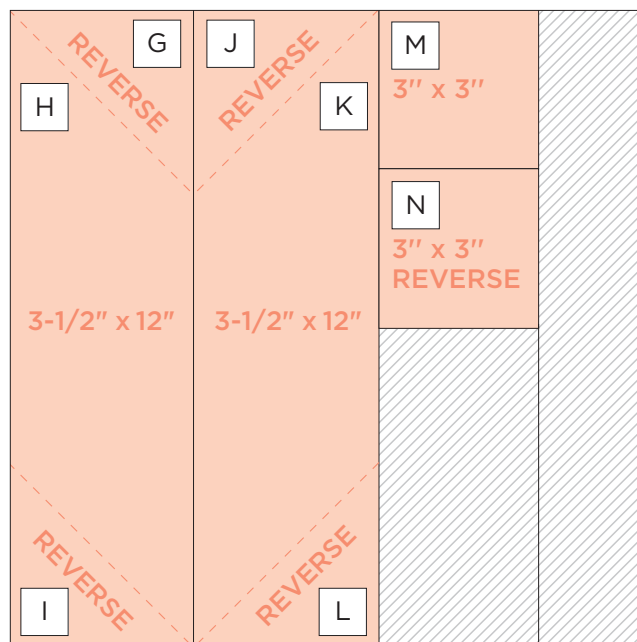

- end with an angled edge after making this cut). Stack the halves together to make the next cut on the remaining straight edges. Line the strip up again with the 45-degree mark (placement will be at the 2" mark on the trimmer when the top corner is placed at the left stitched line on the mat) to make piece O and an extra scrap corner.
- Repeat to cut pieces R, S and T, but first turn over the 2" x 12" strip to the reverse side before cutting. Finish following Cutting Guide 3.
- To adhere the bottom angled pieces, place piece H first by lining up with the left-hand bottom corner. Then adhere pieces G, P, Q and I on top of piece H. For the right page, line piece K up with the right-hand bottom corner and adhere. Then, adhere pieces J, S, T and L on top of piece K.
- Using the Tape Runner, finish adhering the pieces following the sketch above. Use the Repositionable Tape Runner Refill to adhere border pieces.
- Adhere photos and journal as desired. Optional: Apply stickers and embellishments using Foam Squares to add dimension.
