INSTRUCTIONS

- Use Royal Blue Cardstock as the base for your spread.
- Cut Designer Paper #1 following the cutting guide.
- Cut the pieces of Designer Paper #2 following the cutting guide.
- Using the Tearing Tool and pieces C and D, align one edge of the tool up with one edge of the paper, and tear the remaining piece off. Flip the smaller torn off piece over to place along the top edge of the spread as shown on the sketch.

- Using the Snowman Border Maker Cartridge, punch along the edge of the White Cardstock. Once punched, use the trimmer to cut 1" wide. Repeat this step to create a second snowman border.
- Adhere the snowman borders to the back top edge of the larger pieces of C and D using the Repositionable Tape Runner Refill.
- Finish cutting the pieces from the White Cardstock.
- Lay all the pieces onto the spread as shown on the sketch. Adhere into place.
- To complete this spread, add photos and journal as desired.

OPTIONAL ADD-ONS:

- Adhere Glacier Stickers to the spread using Foam Squares on some for added dimension.
